PERSONAL STATEMENT

Current Computer Science junior and President’s List student at Lewis-Clark State College with a background in disciplined technical systems As a CS Tutor, I specialize in bridging the gap between complex logic and practical application, helping peers master programming languages and discrete mathematics. Combining a rigorous attention to detail forged as a U.S. Marine Corps aviation technician with proficiency in C#, Python, and SQL, I am dedicated to building efficient, scalable software solutions and exploring the future of AI-driven development.

Bachelor of Science: Computer Science

Dec 2027

Lewis-Clark State College | Lewiston, ID

GPA: 3.32

SKILLS

PYTHON	C/C++	SQL	C#	LINUX	HTML/CSS	Power BI
--------	-------	-----	----	-------	----------	----------

HONORS

President’s List - GPA Honors

Fall 2024 &

Lewis-Clark State College

Spring 2025

WORK EXPERIENCE

Computer Science Tutor

Sep 2025 -Present

Student Success Center | *Lewis-Clark State College*

- Tutor students in Computer Science, Mathematics, English, and other various college subjects.
- Maintain a clean and friendly learning environment for students utilizing the success center.

Centerfire Machine Operator

Oct 2021 - Jan 2023

Vista Outdoors | *Lewiston, ID*

- Performed part checks on machined cases to ensure quality throughout shift on machines producing 10 to 25 thousand parts per hour.
- Identify and report quality discrepancies to machine set-ups and supervisors to maintain maximum efficiency.
- Perform daily/weekly preventative maintenance/cleaning tasks to maintain a safe working environment and shift changeovers.

Tech 2 Assembler

Feb 2020 – Oct 2021

Seekins Precision | *Lewiston, ID*

- Assemble, ensure proper function of moving parts, test fire, and prepare bolt action rifles for shipping.
- Trained employees on assembly procedures and quality expectations to meet product protocol. Suggested and tested product improvements that increased weekly output by 30-50 units.

Boiler Utility Worker

Aug 2019- Feb

2020

Clearwater Paper | *Lewiston, ID*

- Performed operational cleanup and standard work independently in an industrial broiler environment.
- Identified equipment discrepancies and coordinated maintenance teams for resolution.

Project Manager

June 2018- Jan 2019

Illumina, LLC | *Silverdale, WA*

- Developed design and submittal packages including pricing, technical specifications, and product applications.
- Coordinated installation timelines with contractors and electricians to meet project deadlines
- Troubleshoot smart-home integration systems and delivered customer-focused technical solutions.

Aviation Structure/Hydraulic Technician

Sep 2013- Sep 2018

U.S. Marine Corps | *Camp Pendleton, CA*

- Implemented policies and orders given by supervisors, quality control, and production control. Ensuring compliance with thorough explanation, and close supervision for over 15 employees.
- Demonstrated unquestionable competency, and confidence to complete each task assigned on two different helicopter models, for a total of 30 aircraft.
- Completed 200+ monthly hours of time-sensitive inspections using calibrated mechanical tools.
- Interpreted maintenance instructions/schematics, troubleshoot hydraulic subsystems, and flight controls during high stress situations.

Senior Assembler

July 2011- Sep 2013

Schweitzer Engineering Labs | *Pullman, WA & Lewiston, ID*

- Improved manufacturing processes to reduce defects and increase efficiency.
- Supported launch of new manufacturing facility, collaborating with planning, engineering, and management teams.
- Managed inventory tracking and cross-department coordination to resolve production issues.
